

## INSTALLATION

Safety, continuous improvement and a commitment to excellence—that's the Danser Difference. Danser, Inc. crews spread across the country every day safely installing sheet metal, mechanical piping, ductwork, structural steel, equipment and much more. Danser installation crews are trained on job hazard assessments (JHA's) and have the experience necessary to understand and manage risks while efficiently installing, removing or upgrading complex systems.

### UNIQUE CAPABILITIES

- **Draw it:** Danser Project Managers and Estimators visit the job site to help you determine the best solution and, when necessary, create detailed drawings.
- **Build it:** Danser's 50,000-square-foot fabrication facility and well-qualified supply chain support fieldwork large and small.
- **Install it:** Danser crews complete local and national fieldwork every day with a commitment to safety, quality and your schedule.
- The Danser Project Manager will estimate/measure the job, manage the project in the shop and field install the final solution.

### TYPICAL DANSER INSTALLATIONS

- Ductwork
- Mechanical piping
- Pollution control systems
- Heat recovery and exhaust systems
- Kilns/furnaces
- Insulation and lagging
- Structural steel, platforms and supports
- Vessels and tanks
- Vacuct® high-temperature systems
- Washer tanks
- Process equipment

*Danser fabricated and installed cooling U-Tubes at specialty metals plant.*

*Installing Danser-fabricated inlet duct on 80' tall spray dryer (also built and installed by Danser).*

*Danser fabricated & installed pollution control equipment, ductwork, structural steel, conveyor, exhaust stack.*

*Installing Danser-fabricated ductwork, insulation and lagging.*

*Danser fabricated & installed combustion piping, air headers, fresh air & exhaust duct with insulation & lagging.*

*Danser crew retrofitting metal roof with Hat Channel, Z-Bars and 75' long sheets.*

*Danser crew prepares to install ASME B31.3 process pipe for a steam reformer. Pipe fabricated by Danser.*

*Danser detailed, fabricated and installed access stairs and platform.*

## WHY DANSER?

- Outstanding Safety Record
- Over 80 years of experience
- Flexibility without sacrificing safety or quality
- Broad capabilities for fabrication, installation and service
